

# TOM TYING MACHINES

- Tying machines are unique in that they mechanically tie a bow in the tying twine
- Tom Tying Machines are used Australia-Wide in laundries, mailing houses, metal works, carpentry works, flower growers and many other applications
- When used with our TT28 tying twine, available in white or blue, bundles are securely held for distribution.
- Cotton Sewing Thread can also be used for tying packages, we supply various types.
- Four models are available: TM25, TM45, TM60 and TM100
- Power requirements: 240v/10amp
